Subject: Request for Permission to Access College Server for Project Testing

Respected Sir/Madam,

We are final year students of the Department of Computer Science and Engineering, working on our project titled **“AOS: Adaptive Domain Independent Multi AI Agent Orchestration.”**

As part of our project evaluation, we need to test the system on a server environment using multiple test cases and workloads. The testing will involve running different AI models to verify the integration, model orchestration, routing, performance, and fault-recovery capabilities of our system.

Therefore, we kindly request permission to access and use the **college server** for these academic testing activities. We assure you that the server will be used responsibly and strictly for project-related purposes, following all applicable server usage guidelines.

We kindly request you to grant us the necessary permission and access to carry out the testing.

Thank you for your consideration.

Yours faithfully,

Project Team – AOS

1. Hisham K H
2. Irfan Nazir
3. Harikrishnan T B
4. Edwin Varghese
